Declaration of Conflict-free Sourcing

Dear Madam or Sir

Federtechnik Kaltbrunn AG hereby declares that the supplied products are generally free of the conflict minerals known as “3TG” – tantalum, tungsten, tin and gold, as well as cobalt. These substances are used only by request of our customers.

Independent of the real usage of the abovementioned substances, we prohibit our suppliers from sourcing materials classified as conflict minerals in the Democratic Republic of the Congo and adjoining countries and from using materials produced or processed in that region. In accordance with the sourcing guidelines of the *Responsible Minerals Initiative* (RMI), we obligate our suppliers to comply with the Regulation (EU) 2017/821 of the European Parliament and of the Council of 17 May 2017 laying down supply chain due diligence obligations for Union importers of tin, tantalum and tungsten, their ores, and gold originating from conflict-affected and high-risk areas.

Freundliche Grüsse

Federtechnik Kaltbrunn AG
